

# Raden Mohamad Fadhel Suradipraja

## Junior Software Engineer

Bogor, West Java, Indonesia | mohamadfadhelrpl@gmail.com | +62 851-7500-2096 | linkedin.com/in/fadhelrpl  
| github.com/fadhelrpl | github.com/fadhelrpl

### Professional Summary

Software Engineering student at SMK IDN Boarding School with hands-on experience building web and mobile applications using Laravel, Next.js, Flutter, and Tailwind CSS. Co-developed a full-featured POS system covering authentication, transaction management, and inventory modules, and led web development training for high school students. Eager to join a junior developer role where I can contribute to real product teams while deepening expertise in full-stack development.

### Technical Skills

- Languages:** JavaScript, TypeScript, PHP, Dart
- Frameworks:** Laravel, Next.js, Flutter, Tailwind CSS
- Backend:** REST API Development, JWT / Session Authentication, Supabase
- Architecture:** MVC Pattern, Responsive Web Design
- Version Control:** Git, GitHub
- Design & Tools:** Figma, VS Code

### Experience

**Web Developer** - PT. Perdana Mitra Kencana Jun 2025 – Aug 2025

Tech Stack: HTML, CSS, JavaScript, TailwindCSS

- Designed and delivered 5+ responsive landing pages for client campaigns using Tailwind CSS and vanilla JavaScript, ensuring cross-device compatibility across Chrome, Firefox, and mobile viewports.
- Collaborated directly with clients to gather project requirements and translated them into functional, pixel accurate UI components, reducing revision cycles.
- Improved mobile responsiveness by auditing and refactoring existing layout issues, bringing all pages to a fully fluid grid structure on screen sizes from 320px to 1440px.

**Technical Trainer** - Basic Web Development Aug 2024

Sahabat Ilmu Islamic School

- Delivered a structured web development curriculum covering HTML, CSS, and JavaScript fundamentals to 25+ high school students, adapting technical concepts to beginner-level understanding.
- Guided participants through building their first responsive web pages, reinforcing responsive design principles through hands-on practice exercises.
- Strengthened public speaking and technical communication skills through live mentoring sessions and real time Q&A with participants.

### Projects

**Sellerra POS System** - Web Application Github: <https://github.com/fadhelrpl/sellerra>

Tech Stack: Next.js, TypeScript, Tailwind CSS, Supabase

- Co-developed Sellerra, a full-featured Point of Sale web application targeting small retail businesses, built on Next.js 14 and TypeScript with a Supabase PostgreSQL backend.
- Solely responsible for implementing JWT-based authentication, real-time transaction recording, and multi category inventory tracking modules – covering 3 of the system’s 4 core features.
- Built fully responsive UI layouts using Tailwind CSS, tested across mobile, tablet, and desktop breakpoints; system is currently in active user testing.
